

Taisei Miyazaki

Senior Software Developer | Vancouver, BC | 672-963-8162

isemiya.0509@gmail.com | www.linkedin.com/in/taisei-miyazaki | <https://github.com/taiseiiii>

Senior Software Engineer with 5+ years of experience specializing in Flutter, React, and Java development. Passionate about exploring emerging technologies and delivering technical solutions that drive business success.

Work Experience

evawat | Mobile Application Developer | Remote | May 2024 - Present

- Served as sole mobile engineer for community management app development with 10,000+ users, handling all aspects from feature development to maintenance.
- Built and maintained testing environments and implemented CI/CD pipelines using GitHub Actions, establishing automated release processes to ensure smooth development workflows.
- Implemented deferred deep linking functionality beyond standard deep links, contributing to improved new user acquisition and onboarding experience

SORICH | Full Stack Developer | Tokyo | Aug 2022 - Jul 2025

- Architected Flutter application using DDD and Onion Architecture to systematically model complex Japanese accounting business logic and intricate domain requirements
- Led and mentored 4-person development team, enabling junior developers to advance to leadership positions through comprehensive technical guidance
- Developed full-stack React application with enterprise-grade security (OAuth 2.0/PKCE) and accessibility standards (WCAG 2.1 AA), ensuring robust authentication and inclusive design

KMK WORLD | Full Stack Developer | Tokyo | Apr 2020 - Jul 2022

- Contributed to full-stack development of medical salon management system using Java and Spring Boot, implementing new features and optimizing database performance through SQL query tuning
- Automated manual SSL data transmission processes using Python scripts, eliminating repetitive manual operations and improving operational efficiency

Projects

Yamada UI | OSS Maintainer | Oct 2024 - Jul 2025

React UI library maintainer (~1,000 GitHub stars) focusing on accessibility and internationalization

Core Skills

TypeScript | JavaScript | React.js | Vue.js | Node.js | Express | PHP | Laravel | Java | Spring Boot | Python | Flask | Flutter | Dart | Firebase | Docker | PostgreSQL | Sentry

Education

Bachelor's Degree of Economics, Chuo University, Japan (2020)
